### **Company history**

ES Automatisering was founded in 1998 in The Netherlands. We have worked for a variety of clients ranging from non-profit institutions like schools to real estate agencies and government offices.

### **Mission & vision**

Our strength lies in combining the pursuit of technological perfect solutions, with a genuine interest in the businesses of our clients. By understanding the business of our clients, we develop a better solution, tailor-made for each specific situation.

### **Expertise**

#### *Software development*

Development of custom desktop applications and server scripts using diverse programming languages such as C++, Borland Delphi, MS Visual Basic .NET and Perl. We have extensive experience with both the Windows and Unix/Linux platform.

#### *Web development*

Development of dynamic websites using Perl, PHP, XHTML Strict, CSS, Javascript, Ajax and database interaction.

#### *Database optimization*

Database design and optimization for databases such as MySQL and MSSQL.

#### *Consultancy*

ES Automatisering provides software consultancy for the open source web based software package CRM-CTT ([www.crm-ctt.com](http://www.crm-ctt.com)).

## **Some of our clients**

*Ministerie van Economische Zaken (Ministry of Economic Affairs, The Netherlands)*

We developed the website [www.bedrijfseffectentoets.nl](http://www.bedrijfseffectentoets.nl) which is used by civil servants in The Netherlands, to evaluate new laws and regulations. With the help of this website the process of reviewing laws is streamlined, which results in a more efficient national government.

*Randstad employment agency*

ES Automatisering acts as a consultant to the international employment agency Randstad, for their usage of the open source software CRM-CTT. We support Randstad on a monthly basis.

*Roosternet.nl timetable website for schools*

We developed and maintain the website [www.roosternet.nl](http://www.roosternet.nl) on which schools publish their daily timetables. Over 10.000 students visit the Roosternet.nl website daily to stay up-to-date of changes in their timetables.

See [www.esautomatisering.com/portfolio.html](http://www.esautomatisering.com/portfolio.html) for other clients and finished projects.

## **Contact**

Please contact us, if you would like more information on the services we provide, or if you would like to have a personal conversation.
